It's All In The Wrist

It always is, isn't it, whether you're Wondrous Woman, Dick Tracy or Hank Aaron? Now your wrists can make any project easier. These magnetic wrist bands look like smart watches on steroids, but when you strap one on, you'll have an assistant that holds nails, nuts, bolts, pins, drill bits or any other ferrous widget you can imagine. The 1" x 2" magnet has approx one-pound pull and will snatch up a paper clip from 2" away. The elastic band with a hook-n-loop closure means one size fits all. In black, which will make your wrists look slimmer, and will be perfect for the Mechanic's Ball.

The Electric Ride

It's like the Electric Slide, but with no dancing required. Our (6)-port USB hub turns your vehicle into an electric ride, providing device-charging for all passengers, even the ones misbehaving in the back. Plug the matte black gadget into the cigarette lighter port and charge away. Has (2) USB hubs in the plug itself, plus another (4) in a box that measures 4" x 1.5" x 3/4" and easily reaches into the back seat on a nearly 5-foot cord. Ignore the \$19.99 price on the box--we'll give it to you for half that.

We're Giving You The Green Light

Well, not giving it to you, but selling it super-cheap. From Velleman® Security/CCTV, this flashing green security light is approx 4" dia at its widest x 3" tall. Comes without a plug but with 15" leads ready to be hardwired into a 12VDC source, as in a standard automobile. The (15) white LEDs inside the green cover will flash, but if green's not your color, the plastic dome unscrews so you can easily repurpose it for your own DIY use.

Time To Take A Stand

We suggest you take this one. Made as a promotional device, it never got its promo logo and the light only shines for about 30 seconds, we think to highlight the absent logo. But it kept its ability to make your tablet stand up and be seen. The stand measures approx 5" long, and the light measures about 1.5" x 1". Comes with a 3.5" stylus nestled inside to give your finger a break, and a gray velvet pouch to store it in. Runs on (3) AG-13 button cell batteries, included, and you're welcome.

Welcome

to our American Science & Surplus catalog. Here you will find a unique mix of industrial, military and educational items, with an emphasis on science and education. We supply a wide range of unusual and hard-to-find items (some say bizarre stuff) to the hobbyist, tinkerer, artist, experimenter, home educator, do-it-yourselfer, and bargain hunter. Our items are great gifts, inexpensive supplies, and an endless reason for a giggle or a "Gee whiz!" We try to be scrupulously honest in presenting whatever we know about what we have, and always take it back, no questions asked, if the customer isn't satisfied with it. Please remember that we offer many more items than will fit on these pages. You can both peruse and purchase every item we have at our website: www.sci-plus.com. Thank you for taking the time to browse our catalog. We appreciate your business.

Frequently Asked Questions

What is surplus?

We buy closeouts, inventory overruns, mis-manufactures, and items whose time has not come. We can usually acquire these items on a one-time-only basis. When a surplus item is gone, it is gone. So if you see something you love, best get it now since we may not have it tomorrow. Our website is frequently updated with our inventory. If you see an item in our catalog, but cannot find it online, it means we have sold out of that item. If our stock of the item you have ordered is exhausted we will refund that portion of your remittance. When we can't find surplus, we may carry regular merchandise which we think those interested in learning and tinkering will find appealing, but only if we feel it is good quality at a fair price.

Can I return items?

Yes. We accept all returns without question and will either refund your purchase price or send you a replacement, as you chose. Returns must be made within 30 days of purchase. For complete details, please check the order form bound in the center of this catalog.

What forms of payment do you accept?

We accept Visa, MasterCard, Discover, checks and money orders. We are sorry to report that we cannot accept CODs, cash, stamps or gold. **If paying by check, please be aware that you are authorizing American Science & Surplus to use the information on your check to make a one-time electronic debit to your checking account. This electronic debit will be for the amount indicated on your check. If you do not have sufficient funds in your account, a returned check fee may be debited from your account. If you have any questions, or choose not to have your check converted into an electronic item, please contact American Science & Surplus at (888) 724-7587.**

Do you have a minimum order requirement?

We regret that the costs of doing business preclude us from processing orders of less than \$10.00 merchandise value (exclusive of shipping and handling). We will return orders of less than \$10.00 merchandise value.

Additional information can be found on the order form bound in the middle of this catalog.

Wash Your Car In The Woods?

Either way, ours hold 12X their weight in water and make dandy field towels that will dry you off when the car's done. Mirror, Mirror, On The Tree...

These strap-on mirrors were made to tie to car headrests to watch kiddies in rear-facing car seats, but if you're kid-free, we love these for camping. Tie one onto a tree and the forest is your boudoir. Measure 9-1/4" x 6-3/4" and adjust on a ball-socket arm, with straps that connect with molle buckles. They're plastic and lightweight and their convex-ness also makes them good for wide-angle jobs, like exposing the blind spots in the garage, or around back.

Free-Range Soap!

OK, maybe it's not cage-free, but this bar soap is handmade on an Amish farm in Springfield, Missouri, using Abraham Graeber's family recipe, which contains "no cancer-causing chemicals," according to the package. Because this soap is made by people and not machines, it's good for the earth, too. Our each is (5) giant 5-ounce bars, approx 3-1/2" x 2-3/4" x 1-1/4". (For you youngsters out there, bars of soap are what humans used to use to get clean before there were liquid soap dispensers.)

Put A Masseuse In Your Pillow

Looks like a standard neck pillow, in soft nylon and filled with gooshy foam beads, but press the little button on the right side once for a vibra-massage and twice for a faster vibra-massage. Press the button on the left and a bright white LED comes on to illuminate your book. Snaps on so it doesn't vibrate off your neck. You add (4) "AA" batteries. LED is rated for 50,000 hours, by which time you should be vibrated to pieces. Spot wash only, on account of... duh. We'll pick one in gray, brown or purple and you'll like it. For ages 5+.

Time was, soda jerks and lunch-counter help everywhere wore these paper caps, like malt-shop versions of military garrison caps. Ride The Wild Eagle

Rubber ducks for toddlers' bath time and inner tubes are for amateurs. Real river runners jump on the back of a bald eagle and ride the waves in patriotic style. The bird's determined gaze will help tame the rapids, and the colorful American flag wings will make it easier for the rescue team to find you. On second thought, maybe just use it in your pool. It wouldn't make you any less patriotic. Measures 50" long x 40" wide (which is actually bigger than a real bald eagle) x 32" tall at the bald spot.

Alas, Poor Piggy

Banking in ceramic pigs is so over. Your modern, incipient hipster kids keep their cash in these life-size, bronze colored, metallic, ceramic human skulls. (They're also nice glam additions to any productions of Hamlet.) Measure 7-1/2" x 5" x 4-1/2" with a coin/bill slot at the crown and a rubber plug at the bottom, where your spinal column meets your brain stem. We're guessing that design was on purpose, and we like it.

The ninth part is our name on the side, so you remember where the coolest stuff comes from. Plus it's in the ruler shade of yellow, with a pocket clip. Need more ink? Don't Poo-Poo This Just Yet

Because doesn't everybody poo? Yes, they do, but visit some people's bathrooms and you'd never guess--because they have a Poo-Pourri® spritzer, the odor-blocker extraordinaire. "Spritz the bowl before you go and no one will ever know." Traps aromas under the surface of the water without using synthetic fragrances, parabens, phthalates, aerosols, alcohol or formaldehyde, which means it's safer than a can of dessert topping. Jolly Barry

Why does Roger always get the credit for the skull and crossbones pirate flag? We feel it is time to share and have elected Barry to the post because he just walked by the vast editorial department here at A.S.&S. (AKA "my desk"). Put A Penguin In Your Fridge

And it'll never smell like leftover pork to mein again. The fridge, that is. We love this 4" tall penguin in the traditional black and white outfit just for the way it looks. Collapsabasket

We're fascinated by this thing. It's a collapsible Red-Riding-Hoodish dispan/basket for your sink and beyond, with solid gray plastic rim, base and folding picnic-basket style handles, plus silicone sides in fashionable char-treuse. Measures 15" x 11" x 5-5/8" when open but collapses down to just 1-1/2" high for storage. Could also be a very nostalgic shopping basket, dandy for collecting garden vegetables. Hose-off-able and pretty much niftiness itself. Holds water like a champ and is great for camping.

This stone will scour porcelain, stainless steel or iron grills and can be used on hot or cold surfaces. Made of 95% recycled material. Easy to clean, but will eventually wear out, as will everything else, so you may want to grab two. Measures approx 4-1/2" x 3" x 2" and is mounted in a plastic frame with a 6" handle.

Take care of all of your dust once and for all with this sturdy 6-draw telescoping microfiber duster, which extends from a little under 33" all the way to an impressive 110". The business end is approx 17-1/2" x 4" dia and can be bent into whatever shape works for you. Folded down, the whole thing is only 20" long. Not flimsy at all, in case you were wondering about that. Belt clip also doubles as an easel. Counts down from or up to a maximum time of 99 minutes, 59 seconds, which you can see on the clear LCD. Easier to find than your phone because you're going to leave the timer in the kitchen, where it belongs, and unlike the stove timer, you can actually hear it beep. Made for medical use, but it doesn't care what it's timing. Includes the single "AAA" battery it runs on.

Shiatsu In A Box

You knead this. Actually it kneads you. The Mynt Cordless Shiatsu Massager is heated for extra self-indulgence. Quoth The Raven, "Nevermore"

But this isn't a raven, it's a crow (different tails, if you're curious), and it doesn't say anything because it's plastic. It's also very cool, not unlike the famous "House Bird" from Charles and Ray Eames, America's fave mid-century modern design team, except that their crow is carved wood and sells for \$270. You could look it up. Our bird is even a tad larger at approx 15" long, beak to tail. And it's hollow, with removable legs and a stake for hanging or sticking in the ground. Manufacturer says it's made to scare away real crows, but we like it just for sitting around on the floor, looking crowish or for scaring little varmints. Or if you have, say, a forsythia in the yard, you could buy (3) and have one in the hand and two in the bush.

Got Horseflies As Big As Horses?

Or are you just an inaccurate swatter? Either way, this humongous fly swatter is what you need. The swatter end is 7-1/2" long by 6-1/2" wide and is on a telescopic handle that extends to 39" long, which means the buggers can't escape to the tall ceilings anymore. Contracts to 16" long for storage and has a rubber grip. In neon green so you won't misplace it.

Ouch!

Looks like a cheap kid-sized tennis racket, but brother, this ain't for the kids. It's actually a fine way for adults to work on their upper-body strength and kill bugs at the same time. 18" long, with a 6" wide paddle lined with metal grid. A coil in the handle sends high voltage through the paddle when a button is pushed; hit a bug with it and the bug will bug you no more. But despite the manufacturer's claims that it's safe for people, Scott reports that flesh-paddle contact delivers a nasty shock, nasty enough to say "Keep this away from kids!" We've seen these in other catalogs for about twice the price, so buy it from us. Just be careful with it. (2) AA batteries, not included.

SURPRISE!

Mystery boxes of stuff like what you see in the catalog. Maybe we had a little left but not enough to continue the listing. Maybe we only got a few as part of an odd lot. Maybe we lost some, and just found them in the warehouse. You will get items which originally listed for at least \$25.00 total in our catalog (or would have, if we had enough). You pick. The "electro-mechanical" box has things like motors, switches, hardware and components that are useful parts but want to be worked into something bigger. The "consumer" box has more ready-to-go type items, and things that don't have as technical a flavor, like bottles, toys, books, and giant rubber bands. The fun is in the mystery and surprise. Perfect if you don't know what to give Aunt Maude and Uncle Ned, or if you can't decide how to bring your order up to the minimum. Every couple of months the contents will keep changing, so even if you have gotten a box before, feel free to order again!!

Desktop Atom

Yes, your desktop is made of atoms (you, too) but this is a 7" dia chrome and black model of an atomic structure (Boronish, Paul says) that keeps on turning via the magic of electromagnetics, at least until the 9V battery you put in it wears out. Drinking Bird

You're buying the drinks and this wacky, yet debonair, bird with a top hat and plastic base (7" tall OA) can't get his fill of water. Get him started, and he dips his beak into your glass repeatedly. How? Fluid inside his glass body condenses from the evaporative cooling of the water off the bird's beak, making it top heavy and dunking it back into the water. The condensate rejoins the liquid pool in the bird's bulb, and he tips up again. Process continues indefinitely. It works, but it's not any more than moderately well made, and not any more than moderately priced. **WARNING!** The fluid and dye inside the bird can permanently stain, and the bird's glass body can easily be broken. Children are fascinated by the bobbing bird, and the educational possibilities are great. But they should watch him, not fondle him!! **⚠WARNING: CHOKING HAZARD-Small Parts. Not for children under 3 yrs.**

Be More Vacuous

At least pack more vacuous, because vacuum packing isn't just for coffee, it's for

saving storage space for anything soft and squoosable. We suggest this 6-pack of 40" x 32" large vacuum-seal storage bags, into which you can stuff pillows and blankets and sweaters and overcoats and stuffed monkeys and any number of other things, then suck out all the air with the enclosed hand pump and watch it shrink by 80% so you can slide it under your bed and forget about it for mold and moth-free years. (OK, it's not a pump, because it sucks, so call it a handy little sucker.) Also dandy for travel because the little sucker doesn't take up much space, so you can shrink your return laundry too—and keep it hermetically sealed. Works even faster with a vacuum!

Tub For Toys

Originally intended for hospital use (Think Nurse Cratchit. Think cold, wet sponge baths.), these 12" x 9-1/2" x 4-1/4" deep washbasins have rounded ends and flat lips. The #5 plastic is that wonderful institutional-yellow color. But they're indestructible, short of melting them, and they nest when not in use. Use them to store your craft supplies, the kid's action figures, the cat's squeeze toys. Or take up nursing.

They have a folding handle on top, a secure locking latch, and an O-ring gasket to make them water-resistant. Great for cell phones and other small electronics, wallets, cash, lunch, our Virgil Trucks rookie card—stuff like that.

Field & Forest Guide

Titled "The Field and Forest Handy Book," this volume has been justifiably in print since 1906. Written by Daniel C. "Uncle Dan" Beard, the founder of the Sons of Daniel Boone and one of the founders of the BSA, it's a compendium of eternally relevant woodland lore, from building cabins, sleds, boats, and bridges to camping in swamps. The only part we skipped was on how to cook a muskrat. (We know a place that delivers.) Loaded with illustrations. In soft cover from David Godine's Nonpareil Books; 428 pp.

Watch Out For Hotheads

Easy to do, and important these days. We've been pointing this non-contact infrared thermometers at just about every forehead we see. Reads in one second with a digital display in C or F. Measures body temps of 89.6 to 108.5 F (32.0 to 42.5 C) with a resolution of 0.18 F (0.1 C) and color changing backlit display to warn you when hot is too hot. Normal operating temperature (ambient air) range is 60.8 to 95 F (16.0 to 35.0 C), and the device should be held between 0.4" and 2" inches from those foreheads. Want to fry an egg on your car dash? 94244 Bowl Scale \$39.95/each

Brass Mass Set

And what are you going to do with that scale if you don't order this (10) piece set of weights from Learning Resources Inc.? The brass cylinders topped with knobs have the weights stamped on the top. There are (2) each of 1, 2, 5 and 10 grams, plus (1) 20 and (1) 50 gram weight. You'll probably want to keep them in the molded plastic holder they come in, but they are pretty enough to display. Just weight till you see them.

90070 Brass Weights \$19.50/each

What's A Gram Weigh?

About 1/100 of this solid brass 100g cylindrical weight. Measures 1" dia x approx 15/16" tall with a 7/32" ID cup hook at the top. Pretty. Useful for calibrating scales. And accurate to within one percent, which is one reason for this great price, because if it hit 100g on the head every time, we'd be charging you a heck of a lot more.

93558 100g Brass Weight \$5.65/each

Long-Probe Lab Thermometer

This digital instant-read lab thermometer measures 8-1/4" long total with a 5" long stainless-steel probe that's resistant to most chemicals. Has a removable cover with a pocket clip, on/off button, and C or F readings (-50 to +300C, -58 to +572F). Button-cell battery included.

94966 Digital Thermometer \$10.50/each

Magnets For Next To Nothing

Although they work best next to steel. You'll get a whole bunch (that's 25) of ceramic magnets at 3/4" dia and either 1/4" thick or 3/16" thick with a center bore approx 1/4". (We'll just grab what's on top, OK?)

89924 Ceramic Magnet Pack \$6.95/pkg(25)

Killer Magnet

Once upon a time, a copywriter put this little magnet next to his computer monitor and got really pretty, wavy, aurora-like effects. And then got a new monitor! Don't try this at home. Our shiny, silver-colored 1" x 1" x 1/2" neodymium magnet looks innocent, but is industrial strength, pulling something like 25 lbs with enough strength left over to erase all your credit cards. And wreak havoc with your monitor.

38694 Killer Magnet \$14.50/each

NEW!

It's All In The Wrist

It always is, isn't it, whether you're Wondrous Woman, Dick Tracy or Hank Aaron? Now your wrists can make any project easier. These magnetic wrist bands look like smart watches on steroids, but when you strap one on, you'll have an assistant that holds nails, nuts, bolts, pins, drill bits or any other ferrous widget you can imagine. The 1" x 2" magnet has approx one-pound pull and will snatch up a paper clip from 2" away. The elastic band with a hook-n-loop closure means one size fits all. In black, which will make your wrists look slimmer, and will be perfect for the Mechanic's Ball.

47753 Magnetic Wrist Band \$6.95/each

Mystery Magnet

Beats us, frankly, but this black plastic cover, 1-3/4" x 1-1/2" x 1/4" (not unlike a tiny toilet seat cover) is hiding a really nice 1" dia x 1/8" (think: quarter size) plated neodymium magnet, with at least a 5-lb pull, inside. The mystery is that the cover won't open unless you break it. The magnet grabs fine in the case or out of it. Tap it on its side with a hammer to crack open the case and reveal nothing but magnet.

46258 Encased Neodymium \$5.95/pkg(2)

Neodymium Column

We're liking this little plated N45 neodymium magnet because it will stand on end and stick out very prettily on the ice box. Measures 1" tall x 1/4" square with a hefty, for its size, 20 lb pull. (Will also lie down on its side, of course, because everybody does.)

95658 Columnar Magnet \$2.95/each

The Most Beauteous Cube

Voted most likely to attract by the judges, this magnet has the relative strength of 10 men. A shiny silver 1/2" cube of neodymium magnetism, it packs approx a 15-lb pull. If our boss Pat were that strong he could lift 2,160 lbs! Besides its superpower strength, this beautiful cube also would improve the looks of your fridge or bulletin board to no end.

94775 1/2" Shiny Magnet Cube \$5.95/each

A Real Grabber

Okay, it isn't the cheapest magnet in the warehouse - but we dragged John's 165 lb filing cabinet around the dock with this 4-7/8" x 1" x 3/4" ceramic magnet, we're rating it conservatively at 100 lbs of pull, and we think it's a bargain. It has a 6" bracket with mounting holes on 5-1/2" centers, plus a 1/2" ID eye-hook bolted into the center of it. It's all set to troll the bottom of the lake next time your filing cabinet falls overboard.

91949 Pick-Up Bar Magnet \$10.95/each

Sticky Bar Of Silver

This plated N45 neodymium magnet is shaped like a miniature silver ingot, measuring 1-1/2" long x 1/2" wide x 1/4" thick. Has a big hangability quotient, which the manufacturer claims is 26 lbs of pull, meaning it's probably closer to 20 lbs. Impressive either way.

95659 Neodymium Bar Magnet \$4.85/each

There's A Hole In The Magnet

The 3/16" bore in the center of this small plated neodymium magnet just makes it easier to mount. Measures 3/4" dia x 1/4" thick with a pull of approx 7 lbs. Works great with #6 or #8 flat head screws.

95657 Bored Magnet \$2.95/each

Dandiest Donut in the Domain

Donut magnet you can take to town!! 74mm dia x 14mm thick with a 30mm hole. Very strong and well pedigreed - in fact, its kin are activating pacemakers. They are of a high permeability ferrite material with a lovely light blue or white epoxy coating. Okay, we have them because there is the odd bubble or scratch in the coating which ruled them out of the medical ball, but they're fine company nonetheless. Good display bases, paper clip traps, and super for classroom demos.

2823 Coated Donut Magnet \$3.95/each
VIP Price! \$2.50/each

Magnetic Pull

Add a door/drawer pull to any ferrous surface with this 1" dia x 1/4" thick neodymium disc in a polished sleeve with a 3/16" dia hole in a stand-off. Comes with a 1" slip-ring attached, and hangs on for 22 lbs worth. Plenty handy for hanging stuff from other stuff, too.

93515 22 Pound Magnet Pull \$8.75/each

Plain Donuts

Can't beat a classic. These uncoated ceramic donut magnets have a 1-lb pull, which makes them dandy for classroom or refrigerator use. They measure 1-1/4" dia x 3/8" ID x 3/16" thick and are polarized on the faces. You get a wrapped roll of 29 donuts.

40007 Uncoated Magnets \$7.50/pkg(29)

Excellent Electromagnet

Physics project alert! This robust puppy of a magnet has dual 6V coils and stands 4" high x 3-1/4" wide, not counting the side terminals. Each coil draws 2.4A at 6VDC, and is conservatively rated for 40 Newtons (approx 9 lbs) at that voltage. Can be wired in either parallel or series, and comes with a mounting hook. Works great with a 6-volt lantern battery.

93088 Electromagnet \$19.50/each

A Lot Of Pull

Pick up this 1-3/4" x 7/8" x 3/8" ceramic pick-up magnet while we still have it. It's in a heavy metal housing and has a stationary metal hoop, about 1/2" i.d., on top. The manufacturer tells us the magnet will grab up to 5 lbs of metal, however Pat and Magnet Testing Team #3 have repeatedly lifted 10+ lbs, so it's very strong. Especially if you're going to dangle it on the end of a cord to gather spilled nails or to fish your keys out of the lake/pond/sewer/drain!

91859 Pick-Up Magnet \$3.25/each

Ceramic Reefers

Beautiful refrigerator magnets, all set to be imbedded in your child's best ever creation for refrigerator work. Six file card holding power, 3/4" dia x 3/16" thick ceramic with beveled edges to minimize chipping. They don't come much better than that!!

89444 3/4" Ceramic Magnets \$3.50/pkg(8)

Mighty Pretty & Mighty Powerful

Like Wonder Woman, this nickel-plated rare earth magnet is pretty and extremely powerful. It's a 3/4" square x 1/4" thick neodymium magnet with an 8-lb pull and a better-than-usual plating job.

41109 Nickel Magnet \$7.95/each

Rare Find!

Rare earth magnets are usually killers for their size, and these thick nickel neodymium discs are no exception. The price, on the other hand, for (3) 7/16" dia x 1/4" 5-lb lift or (2) 9/16" dia x 3/16" 8-lb lift magnets each stored on a 2" dia steel disc, is a rare exception.

Magnet From The Black Lagoon

Yes, this ceramic magnet is beastly--a monster, measuring 6" X 4" X 1" thick with a conservatively rated pull of 35 lbs. Powerful and, like all ceramic magnets, brittle, so keep it away from your laptop and don't drop it or you may have several little beastly magnets. Use it to hold tools in the shop, or knives in the kitchen--or paint a bull's eye on it and toss paper clips at it.

95655 Monster Magnet \$13.95/each

How About A Few Belts?

White nylon web belts that were originally flag football belt straps. Nice as just a belt, though. Measure 1" wide x 44" long with a double-ring buckle. Good for strapping up pretty much anything, and can be worn after Labor Day.

Throw a Net over It, Marge!

We wouldn't try to capture 'gators with it, but this 4-ft x 6-ft black nylon, elastic (not-un-bungee-like) cargo net should trap anything else in the back of the pickup, van or kids' bedrooms. Stretches to about 6' x 9', with openings that are 7" square, stretching to maybe a foot, and 16 carabiner-style plastic hooks. Or just hang a couple on a wall for a nice Spiderman effect.

92582 4' X 6' Cargo Net \$10.95/each

The Bigger Bungee

Mega-bungee cords. Just the ticket for tying down motorcycles, refrigerators, or large marsupials. (Tie your kangaroo down, boys!) Our each is a package of (10) of these monsters, approx 1/2" dia x 6-feet long, in black with green accents (colors may change), with 1" x 2-1/2" hooks on both ends.

According to the manufacturer, these will stretch to double their length, 144", but you may want to keep it under that just to be safe. That's almost 8-LBS of bungees and just under two bucks a piece. Outstanding!

93107 Bungee Cord 10-Pack \$18.50/each

Fishnets

Not fishnet stockings, but netting for actual fish, direct from the U.S. Army (you'd think Navy, wouldn't you?) in olive drab. It's a survival thing. You get a 10-foot x 5-foot net made of 3/4" squares individually knotted from twisted cotton/nylon, so the net won't unravel if torn. Might have a slightly musty aroma (but definitely not fishy) that a little sunshine time will fix. Great for maritime-theme decoration, bible-camp plays (filled until breaking, walking-on-water background prop...) or, we suppose, fishing. And perfect if you want to go to a costume party as Poseidon.

39763 Army Fishnet \$19.95/each

Imagine them in various sizes in a glass container. Imagine dipping them in paint, rolling them on canvas and making the world forget about Jackson Pollock. They also work as heavy-duty marbles, and might even calm you if you place a few in your palm and work them like a stress ball. See what you can come up with when the wheels start turning? Mood Sheet

See psychedelic patterns the safe way! Press your hand on this 6" x 6" sheet of liquid crystal and leave a print of swirling colors that, like the mood ring of yore, you can use as a sign of your mood. The pattern will blend and fade in seconds as the crystals react to temperature. Tiny liquid crystals inside the film-like material react to heat by changing colors. As science, it demonstrates the way liquid crystal displays work. And you can cut it into pices to incorporate into a science project. Or just leave it out for guests to play with when the party turns boring.

Gnats and mosquitoes will never get a taste of you when you're in your brand-new, olive-green, military hat/insect net. An elastic headband inside it keeps the nylon top snug to your head (or your helmet). Below it, an approx 12" dia spring-steel hoop holds the fine netting away from your face. Close it at the bottom with a drawstring and (the Army thinks of everything, and apparently won't tolerate you running around a buggy jungle in a tee shirt) attach its (2) elastic hooks to your breast-pocket buttons. About 20" top to bottom and quite snazzy, we think.

It's an olive drab canvas bag 30" x 29" in a vaguely torso/chubby clover shape, e.g. with approx 8" bump-outs at the the top and on two upper sides. Like a garment bag for a fancy dress uniform with a giant collar and big epaulets. (OK, we made that up, but still.) Peace, brothers and sisters. If you're on the peace train, you might like this sky blue 100% woolen beret from the United Nations, just like the UN peacekeepers wear. Hey Sailor, Nice Hat!

From the U.S. Navy stock of unused Gob hats (no, we don't know where that name comes from) or more familiarly "dixie cups," in white cotton twill. We'll pick from sizes 7 through 8-1/2 if you're going for the Cracker Jack look, but if you turn the sides down like Gilligan, one size fits every noggin. Upright, it should be squared up for authenticity. Group discount available for drama teachers staging South Pacific.

Rubberized Convert-a-bag

We think these started life in the Chinese military, but they won't say. They're small garment bags in a heavy rubberized fabric. Measure 24" x 15-1/2" x 5-1/2" but have a set of double-snap male closures with (3) alternate sets of female clips so you can keep it full length, fold it once, or roll it up to 1/3-size. Got Russian Gas?

These gray rubber gas masks from the Russian military fit over your entire head and lend a very insectesque appearance. Eye lenses measure 2-3/16" dia and the front of the mask ends in a snout-like fitting for a filter, which you won't get because we don't got. (We think it is a standard size) As usual, don't wear these masks into any "situations"—they're for decorative purposes only.

47605 Russian Gas Mask \$12.50/each

Headed Overseas?

That's where these military overseas caps started out, on Deutsch köpfe. Slightly shorter than the U.S. garrison cap, and with a jaunty curve, front to back, they're in dark blue-gray with orange piping and a German army insignia on the front. We'll pick a pair in (2) different sizes 58-63, which is approx 7-1/4 to 7-7/8 on American heads, but the envelope design gives them some size leeway.

What A Waist

One thing we know for sure about this olive drab belt with a gunmetal gray molle buckle: it was made in China. We think it might be genuine military surplus, and where better for the Chinese military to make their stuff than in China? But we can't be 100-percent positive it was made for soldiers. It sure looks and feels "military" to us. Has a nice comie star on the buckle, along with a symbol that looks Chinese enough to be Chinese. Expands to fit a 48" waist, and is 2" wide. We've seen them called "Chinese Pistol Belts," but whatever they are, they're awfully attractive. Ours have a little wear, as if they've been sitting in a wet Chinese warehouse, and you may see some corrosion on the eyelets, but we promise, they're new.

What's Ammunition In Chinese?

Couldn't tell you, but it's what soldiers put in this bandolier from the Chinese military. Measures 27" long x approx 5" high with (10) ammunition pockets at 1" x 4-1/2" (think Snickers bar size) with flaps closed by frog-like catches with wooden pegs. Includes adjustable 38" shoulder straps, too. Great for fishing, hiking, camping, traveling, clubbing, college-ing and high school-ing,

Bracelet closes with black snap closures. Mildew and abrasion resistant. In black, royal blue, red, purple-ish gray with black edges, and camo. Fallout Shelter Sign

They're Back! Those of a certain age will remember being taught to crouch under their school desks in case of nuclear attack. Shortly thereafter, the gov't, in its infinite wisdom zoomed about thescapes plastering black and yellow signs on buildings with basements to designate them as fallout shelters wherein it stored cans of water and radiation meters which were so insensitive that any reading could only mean the past tense of crispiness. We have a quantity of these signs, brand new in the sense that they have never been plastered, but antique in the sense that they are the Fifties originals. 10" x 14", 25 ga. galvanized steel. They have a black base coat on the front over sprayed with orange/yellow reflective paint in the familiar design rendered nearby by our faithful artist. This is a true collector's item fetching \$50 and up in antique stores! A tasteful addition to even the dullest basement hangout.

I Will Survive...

You will survive, too, just like Gloria Gaynor, and in the woods, even. But only if you have this U.S. Army manual, cleverly titled: SURVIVAL, Department of the Army Field Manual FM21-76. It's 287 heavily illustrated pages of techniques for staying alive (add your own BeeGee jokes here) including orientation; food & cooking; fire- and shelter-making; rafts; animal, insect and plant recognition; and much more. This is the 1970 edition, but staying alive in the woods hasn't changed a whole lot since then. In soft-cover.

It was him or me. OK, no more Grouchoesque jokes, just a great deal for the home howitzer owner on this lightly used 1950s artillery scope. Measures approx 7-1/2" x 5" x 4" with olive drab paint and a plethora of moving parts, including an optical head that pivots up and down; a focal knob calibrated from 0 to -90 and +10 to +80; horizontal and vertical adjustments with a locking lever; and a 1-5/8" dia ball with a 1/2" hole in the bottom for a mount. You Strapped?

Wouldn't you rather hear that than "Is that a cell phone in your pocket...?" Yes, you would, and you will if you strap on this green camo phone holster. Made to strap (we like saying that) to your leg above your knee, like Wyatt Earp's Colt (or any number of the army surplus gas masks we sell), but you can also attach it to your arm or some other handy body part because the two straps extend from 15" to 27" and 10" to 13". The waterproof holster is 7" x 6" with a 5" zipper, and the phone is operable in situ, as it were, through the transparent protective covering. Manufacturer calls it a "Hunter's Phone Holster," but don't let that stop you from wearing it around the neighborhood. Also adaptable, we think, to small dogs.

Cut Right To It

This all-purpose scissors is the favorite of everyone at A.S.&S.: Pat uses his to cut and strip wire. C.J. uses his to slit the tape on packages. Mary Ann uses hers to open bags of pretzels. It's 6-1/4" long overall, with a very sharp 2" stainless steel blade and large, comfortable handles. (Colors will vary). It would sell for \$9.95 retail if it was new, but it was used for one day to cut cloth in the assembly plant of a major car company, then discarded. Quality control is a wonderful thing.

Itsy Bitsy Pocket Saw

We thought of you when we saw this saw. See? Folds into a 2-3/4" long x 5/8" x 5/16" thick orange plastic cover. Inside is a 2" saw (see?) with (24) TPS (teeth per inch) and a second 2" long razor blade. Saw cuts most wood and metal on the pull stroke. A small hole allows you to hang it on a key chain. Manufacturer suggests it as a skinning blade, but we like it for opening boxes with stubborn fabric tape because we don't skin much around here besides our knees.

The Penny Cutters

These are the so-called miracle shears. They were designed for use by paramedics and others needing quickly to cut wire, light sheet metal, or other tough stuff that might stand between them and their quarry. They are normally demonstrated cutting a penny in two. Which they will do. But not as a steady diet. Let's dispel a few myths. While these are Pakistani stainless, we're not talking any miracles in manufacturing. They are good for their purpose, and real handy to have in the old tool box. But their purpose isn't making pennies into 5-mil pieces, and you will twist or break them at about the same time you find out that you've done the same thing to U.S. laws! For sheet metal or wire or fishing leaders or tin cans or whatever, be our guests.

Combination Pliers

Sometimes called Linemen's Pliers or TLs, as in telephone lineman, who we remember screaming as they slid down splinter-covered poles in the Army Pole-Lineman School at Ft.
